

## Running the Reservation System from *Inside Bldg 85 Complex* Using a Mac

Start **XQuartz**, and from the topbar open the Applications menu:

Select the **Terminal** option.

Login into the NMR server computer system as shown below:

The server name is **nova.chem.utah.edu**

Note that you should submit your own unique user ID for **username** in the example above.

Supply your password followed by a **<return>**

The command prompt will then appear.

To start the reservation system, type **rsv** on the command line.
